## PERIMETER PROTECTION SERIES MDF

> That's what was needed! **How fasten the shaped mesh panel without through screws or threaded inserts?** How to achieve the easiest assembly of guards by one operator by avoiding the use of linear, angular or three-way uprights? **A brilliant intuition** of Satech's technical department has solved the problem.

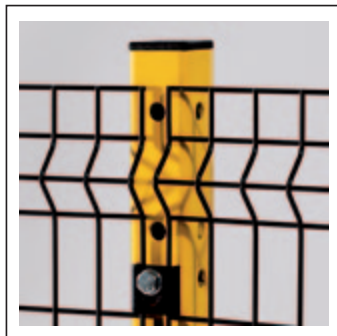

**40% TIME SAVED** compared to traditional system

## MDF

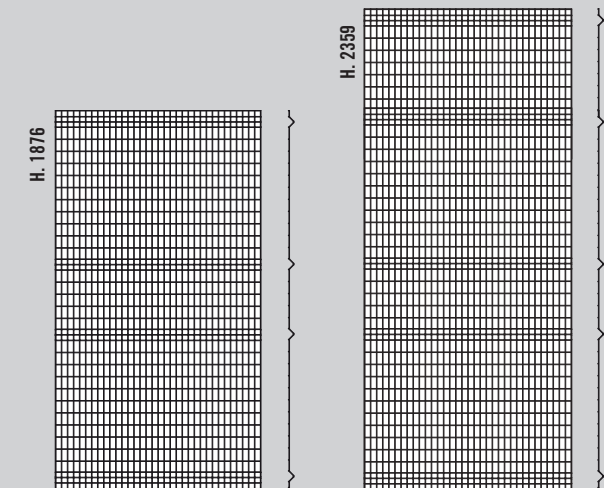

> The MDF protective system has 2 different panel-posts connections:  
**Unlosable screws:** which includes bracket, screws, nuts & assembly spring, all extremely robust.  
**Unlosable clip:** with a little pressure you can have a rapid & stable fixture of the panel without having to work behind the posts.

It also comes with 3 assembly tools so that the construction of the perimeter is made even easier & faster.

**CAPTIVE FASTENING** available on request
